Daily Plan:
The duration of this agreement is for the rental period specified in the Cellular Phone Rental Application Form (hereinafter "Cellular Phone Rental Agreement"). Extensions are possible only when the contractor (or Signatory if signed by a corporation) submits an application for an extension prior to the termination of the Cellular Phone Rental Agreement. Rental fees paid at the time of application are not refundable in cases where rental phones are returned before the termination of the rental period. You will be charged for the rental fees and charges for all calls made during the contract period including the period lasting until the service is suspended.
Monthly Plan:
Depending on the plan you select, the duration of this agreement is one or two years from the date specified in the Cellular Phone Rental Application Form. In the event you cancel the service before the contract end date, you will be charged for the remainder of the contract term. After the one or two year period, the contract will be treated on a month to month basis. The monthly charge for the month of the cancellation will be prorated.

2) Airtime charges
There may be airtime charges for incoming calls depending on the country you are visiting. There will be a charge for calls made to toll-free numbers and for calls made via calling card.
